How to make a Character:

1. Firstly, choose a **name**, and **background** (*Races are RP only* and do not contribute to your stats)
2. Second: Choose your elemental main. This is the element you will put most stats into **at First**.
3. Leave your focus, Path, and subclass blocks empty. Under histopath choose one of the following:

Name:	Traits:
Blood of Angels	+3 to any roll for healing an ally
Blood of Demons	+4 to any roll for deception
Blood of Warlords	+2 to any hit checks (in combat), and +2 to intimidation
Blood Of Thieves	+10 to predation rolls, +2 to stealth And sleight of hand checks regardless of proficiency.

4. Roll a D20 **with advantage** for each stat block (if rolling)
 - a. For point buy a level one character should have about 30 SP
 - b. For average use standard rules
5. Assign the **highest** roll to your **elemental main**
6. Choose a class.
7. See sub-main specifications for Path, subclass etc
8. Put 0 under CHAO, roll 1D10 for every character level and addt10 to the result. Put this number under the MAX side of chao

9. Roll one hit die (d10) per level and add 10 to the result, put this under Existant and its MAX side.

10. Starting Creds is 9,000

Feats list:

[EVO] multicast: Every 4 levels gain an additional charge per turn.

[EVO] Babels tongue:

Your character has a knack for reading body language. So much so that it helps them learn real languages!

Every 4 levels select one language from each type/rarity to learn.

[DEVO] Administrator rights: have the ability to cast wish *once* no matter who the character is. DM can reject wishes. If your wish is a display of hubris penalties can be instated (1d8 untyped damage)

Classes:

Predation:

Every time you successfully take down an enemy stronger than you, you have the opportunity to roll a predation die (1d100) at 85 or higher you gain a proficiency or attack held by the enemy (with its base attack weakened to the die of your level's highest damaging skill if stronger (so a for an attack that rolls 3d8 of damage if your highest attack is a d6. You roll 3d6 in attack on hit). If you roll less than 85 but higher than 50 gain 5% of the creatures stat of your choice. this class uses the constitution ability score for spellcasting.

Glass railgun:

Base movement speed of 40ft

Limited spell list of: cure minor wounds, prestidigitation, dispell and detect magic.

On a successfull attack multiple the damage by 1.5 if moving, else by 0.75

always roll with advantage on stealth rolls

Melee-

uses spells specifucally for and with blades

Can use any melee weapon

Can use ranged or spellcasting weapons with disadvantage

Spellcaster:

Can use any spellcasting weapon.

Can use melee and ranged weapons with disadvantage.

Ranged:

Can use any ranged weapon.

Can use melee or spellcasting weapons with disadvantage.

Sub-Main Specifications

- Soldiers can deal 1d6dmg each turn plus their summoner's highest mana type (not modifier)
- Existential Cost: 1EP/turn when in combat, 5/day when out
- CHAO Infliction: 1CC/day when in combat, 5CC/day when out
- Charge cost: 2 (when in battle, when out: 0)

Combat Guidelines:

- First players must roll for turn order - on a D20.
- The first character in the turn order then has the following choices
 - Cast a spell with their charge and continue their turn until the next choice
 - Take an action that requires zero charge and end their turn.
 - Or use an item (carried non-damaging equipment and other non-attack oriented goods) and continue their turn until they make a non-charged attack.
- Chain attacks:
 - Once a full party has completed seven turns without an ally falling they may engage in a chain attack.
 - Once a party has activated a chain attack they may each make one attack in turn order - completely disregarding the enemies turn.
 - Upon completion of a chain they may roll a d100 - if the result is higher than 70 they may then continue for another chain.
 - Anytime the party makes an elemented attack the DM shall roll a D20 to determine whether or not the element of said attack forms a blister (DC at dms disgression)
 - If it DOES then once the party deals 1/8th of the enemies max health in that element the blister bursts, doubling that damage with the aspect of the opposed elemental type.
- Fusion attacks:

- If two players are next to each other they may choose to enact a fusion attack (on the table in the appendix) after two turns of maintaining said position.
- These are typically stronger than the original attacks and combine their special attributes.
- Hit Checks: A hit check is run with a D20 + The accuracy modifier of your held weapon and equipment
 - Must be rolled to determine whether an attack lands.
